When you play the coin push game, you may drop four coins side by side in order to push coins faster and reduce the accumulation of coins without falling. When you do this, you will see more coins falling from the side. When coins fall from the side, they are nothing. Instead, throw all your coins in the middle of the coin area and stack them on it. This will result in a larger coin pile towards the end of the platform, avoiding the side. In addition, coins stacked on top of other coins are easier to slide out of the edge. This will lead to more coin attacks and a large number of multiple coins falling,
