Riot Games' Valorant has arguably the coolest weapon skins you can get in online games. Some skins deck out way more for your gameplay than just a shiny new look—some have epic reload animations, some come with dope kill animation effects, and some have awesome new kill signs when you get multi-kills. Most of these cool skins have a nice fat price tag on them, though they do make the default weapons look a bit dull. However, there are ways to deck out your loadout without spending any cash!
