The exact nature of how this works is a little complicated for an average person to understand, but we want to ensure total transparency for our users, and so we'll go into details about how the generator works. Given the number of fake services out there that will ask you for a lot of your money to get followers, you need to know how our service operates. After all, how could someone provide a huge number of tiktok fans without asking anything in return? Well, there is an answer to how - and why - one would do that. Users need to undergo a verification process that must be followed by the user, and when you get accepted on the system, it begins generating money. While you go about completing tasks, our sponsors pull together the amount for it that is paid to us as a certain amount of money. That money is then used to acquire the free TikTok followers that you would have otherwise been charged for. On this app, the more fans you have, the more likes you will get. Basically, it sounds like everything is completely free, but the reality is that we are indirectly paying a third-party to help you get the followers. That is why there aren't any trick or shady tools involved. Why Us and not other
